Daily BAU Operations Checklist

Daily BAU Operations Checklist

Project: IT Delivery & BAU Operations Tracker

Document Type: Daily Operations Checklist

Owner: IT Operations Coordinator (Simulated)

Frequency: Every working day

1. Daily Work Item Review

- ☐ Review newly created Jira work items.
- ☐ Check High and Highest priority tickets.
- ☐ Identify tickets with missing owners or due dates.
- ☐ Review overdue work items.
- ☐ Check blocked tickets and outstanding dependencies.
- ☐ Review stale tickets and request updates from owners.

2. Blocker Follow-up

- ☐ Confirm each blocker has a documented reason.
- ☐ Verify the responsible team or blocker owner.
- ☐ Review next actions and follow-up deadlines.
- ☐ Escalate significant operational risks when necessary.

3. Jira Hygiene

- ☐ Verify that ticket statuses are accurate.
- ☐ Check ticket descriptions and acceptance criteria.
- ☐ Identify potential duplicate work items.
- ☐ Review missing or outdated information.
- ☐ Update ticket comments with meaningful progress.

4. Documentation and Reporting

- ☐ Update operational trackers when required.
- ☐ Record key decisions and action items.
- ☐ Update relevant Confluence documentation.
- ☐ Review upcoming reporting deadlines.
